

School: Seton LP  
Grade & Section: G1  
Term/Quarter #: T3  
Subject: Math  
Lesson/Title: Fractions

Name: \_\_\_\_\_ Date: \_\_\_\_\_

I. Check  **Yes** if the shaded part of the whole shows  $\frac{1}{2}$  and check  **No** if it does not.

a.  \_\_\_\_\_ Yes  No

b.   Yes \_\_\_\_\_ No

c.   Yes \_\_\_\_\_ No

II. Encircle **Yes** if the shaded part of the whole shows  $\frac{1}{4}$  and **No** if it does not.

a.   Yes  No

b.  Yes  No

c.   Yes  No

III. Check ✓ the figure if it is divided into equal parts and cross it out ✗ if it is not.

Color  $\frac{1}{2}$  of each shape or object.

Color  $\frac{1}{4}$  of each shape or object.

IV. Identify whether the shaded part is  $\frac{1}{2}$  or  $\frac{1}{4}$ .

Divide each figure into 2 equal parts. Then, color  $\frac{1}{2}$  of it.

Divide each figure into 4 equal parts. Then, color  $\frac{1}{4}$  of it.

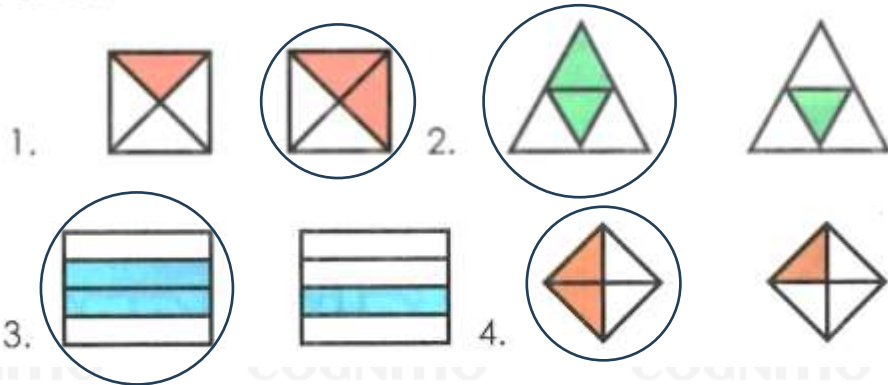

V. Compare the two figures by using  $>$  or  $<$ .

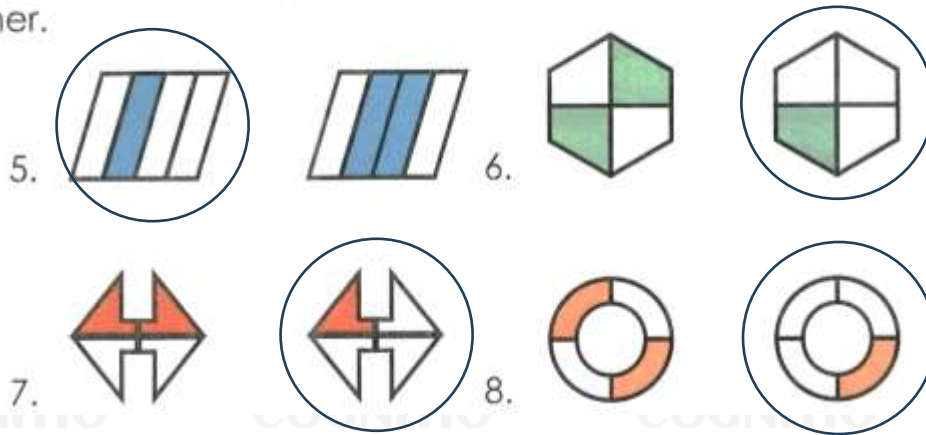

VI. Compare the shaded part of the following figures by using  $<$  or  $>$ .

VII. Encircle the shape that has a greater shaded part than the other.

Encircle the shape that has a less shaded part than the other.

VIII. These are all halves. Count them and write how many there are in all.

1.  4 halves

2.  2 halves

3.  6 halves

4.  8 halves

5.  4 halves

These are all quarters. Count them and write how many there are in all.

6.  4 quarters

7.  12 quarters

8.  8 quarters

9.  8 quarters

10.  12 quarters

IX. Count the number of halves in the pictures below.

4 halves

2 halves

6 halves

8 halves

6 halves

Count the number of quarters in the pictures below.

4 quarters

8 quarters

12 quarters

8 quarters

12 quarters

X. Color 5 halves in the hearts below.

Color 10 quarters in the circles below.
